SUMMARY

Versatile Learning Designer with expertise in agile instructional design and technology integration for cybersecurity training. Led the development of a 160-hour hybrid course, enhancing engagement through hands-on simulations and partnerships with technology vendors, resulting in substantial improvements in learner outcomes and operational cost-efficiency.

SKILLS

- Instructional Design
- Live, Blended, & Distance Learning
- Articulate 360 (Rise & Storyline)
- Camtasia & Video Instruction
- Moodle & Blackboard LMS
- Learning Analytics
- ADDIE / Agile Design
- Adult Learning Theory
- Cybersecurity Curriculum Design
- Adobe Captivate & Creative Suite
- Adaptive Learning Technologies
- HTML and CSS

EXPERIENCE

Learning Designer & Facilitator, Cybersecurity Training, February 2023-Current

- Curriculum Leadership: Designed a 160-hour hybrid cybersecurity course integrating authentic, hands-on simulations; led SME team through agile course development, cutting production time by 66%.
- Advanced through instructional and curriculum design roles within Air Forces primary Cybersecurity Training program, leading design, development, and facilitation of hybrid learning for 4,500 students annually.
- Revised advanced cybersecurity courses, partnering with vendors and range technicians to deliver ACAS, ARAD, and additional vulnerability management tools in hands-on learning environments.
- Converted legacy classroom content into interactive eLearning via Articulate Rise, Storyline, and Moodle, aligning with adult-learning and collaborative-learning theory.
- Learning Management & Optimization: Managed multiple secure exam platforms and migrated content to a new LMS, eliminating \$40K in annual costs and improving testing efficiency.

Assistant Teacher, 4th Grade Math Team, December 2020-May 2021

- Assisted team of teachers in delivering early algebra and digital enrichment to 100+ students. Facilitated computer-lab learning sessions to enhance digital literacy and foster collaborative problem-solving.
- Supported teachers in creating interactive math lessons for fourth-grade students.

- Organized small group sessions to improve student comprehension of mathematical concepts.
- Assisted in managing classroom dynamics to foster a positive learning atmosphere.

Flight Chief, Command & Control Training, September 2018-December 2020

- Unified two specialty courses (1.4K curriculum hours, \$8.4M equipment) and led 45 instructors through COVID remote operations, maintaining uninterrupted training delivery.
- Oversaw training programs for operational readiness and command execution.
- Coordinated resource allocation for simulation exercises and team development.
- Developed training materials to enhance participant engagement and learning effectiveness.
- Converted four Air Force technical courses to blended-learning format, achieving \$90K annual savings in print and travel costs.

Flight Chief, Deployable Systems, March 2016-September 2018

- Directed 60 personnel through reorganization and training programs, enhancing operational readiness for multiple contingency missions.
- Partnered with Raytheon and Air Force Test Center to evaluate and standardize training, improving effectiveness of next-generation radar systems.
- Deployed Air Traffic Control Radar to a contingency zone for the first time in 15 years; received Air Force Lima Site 85 Team Award.

Superintendent, Faculty Development, March 2012-March 2016

- Introduced case-study and flipped-classroom methods linking distance learning to applied leadership, increasing graduation rates by 15%.
- Led blended-learning conversion for Academy's leadership curriculum, fostering innovative teaching practices.
- Directed professional-development program for 22 instructors, exceeding college standards by 250%, enhancing instructional quality.

EDUCATION

M.Ed.

Educational Technology & Instructional Design, Western Governors University, Salt Lake City, UT
January 2025

B.A.

General Studies (Education Concentration), William Carey University, Hattiesburg MS January 2024

A.A.S.

Instructor of Technology & Military Science, Community College of the Air Force, January 2013

Ph.D.

Instructional Systems And Workforce Development, Mississippi State University, Starkville MS

CERTIFICATIONS

CompTIA Security+ (2024) - CompTIA Network+ (2023) - CompTIA A+ (2023) Advanced Instructional Systems Design (2023) - Training Supervisor Course (2019) - Professional Management Certification (2018) - Basic Instructor Course (2013) - Electronics Principles Technical Training (2001)
